Impurities of the blood, depression of vital energy, pale and otherwise sickly somplexions indicate its uccessity in almost every conceivable case. Innxious in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz.

In Deblitty, Norvous Affortions, Duarrhea, Dysentory, Incipient Consumption, Sorotulous Tuberculesis, Salt Rheum, Mismenstruation, Whites, Chiorosis, Liver Complaints, Chronic, Headaches, Rheumalism, Intermittent Fevers, Pimples on the Face, &c.

In easen of General Deblitty, whether the result of sectu disease or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved buccessful to an extent which no description nor written attestation would render credible. Invalids solong bed ridden as to have became forgotten in their now neighborhoods, have suddenly reappeared in the busy world as if just returned from protracted trarel in a distant land—some very signal instances of this kind are attested of female Sufferers, emeciated victime of apparent murannus, sanguincous exhaustion, critical changes, and that complication of nervous and dyspetite aversion to nit and exercise for which the physician has no name.

In Nervous Affections of all kinds, and for cossons familiar to medical men, the operation of this preparation of from must necessarily be salutary, for, unlike the old codes, it is vigorously tonic, without being exciting and overheating; and gently, regularly ageripan ever in the most obstinute.

Rocktand, ME., June 4.—A large caucus was held here on Saturday evening, at which resolutions were passed favoting the nomination of Hon. E. K. Smart for Governor. Hon. S. A Douglas for Fresident and Sam. Houston for Vice President.

Life is a journey, and they only who have travelled a considerable way in it are fit to direct those who are setting out.

The following toast was given, recently: "The lakles—May we kiss the girls we please, and please the girls wa kiss."

It is a general remark that all classes of persons are ever ready to give their opinions. We think the lawyers must be excepted; they sell theirs.

"A woman should never, under any cir-"A woman should never, under any cir-counstances whatevor, lose her temper."— Might as well tell the wind not to blow on a March day, or the rain not to come down in April. Trend on her corns, or track mud on her new carpes; and then preach to her against losing her temper.

ST. NICHOLAS HOTEL,

Broadway, New York.

WHEN COMPLETED, alx years ago, the St. Nicholas was universally pronounced the most magnifleent, convenient, and thoroughly organized establishment of the kind on this continent. What it was then it remains to-day—without a rival in size, in sumptiousness, and in the general elements of comfort and enjoyment. The Hotel has accommodations for 1,000 guests, including 100 complete suites of apartments for samilies. Six liundard porsons can be comfortably seated at the tables of its three public dining rooms, and nothing that modern art has devised for the convenience and social gratification of the fraveling public has been emitted in its plan, or is neglected in its practical details. The early reputation of the house at home and alpoad, derived from its magnitude, its superb appointments, and its home-like comforts and luxuries, has been emhanced every year by the unwearled exertions of the romireters.

WATER OIL:

Hebbard's PATENT WATER OIL, to smell and smoke of the Coal Oils, is the great cst artificial light yet discovered. It gives a steady, clear, soft light and does not choke the lungs with foreign matter, such as results generally from using Rosmand Kerosene Oils or Coal Oas.

The flame can be regulated to afford any amount of light desired, from that of the large solar lamp to the feeblest taper. We therefore claim for the Water Oil the following as some of its leading characteristics:

1. It emits no fortification.

istence.

8. It does not crisp the wick like Oils, nor deposite any carbonaceous fuel upon it.

9. It does not waste, as every glabule of Oil and every particle of Water is entirely consumed.

Onland every, particle by water is entirely consumed.

The following is the Certificate from Dr. Hayen, on the illiminating power of the WATER OIL as compared with the best article of Kerosene Oil in the market:

16 BOYLSTON STREET, 14th Feb. 1860.
Results of comparison of the light of two lamps, one fed with Kerosene Oil, gand the other with Water Oil, furnished by B. F. Hebard.

The Kerosene Lamp when lighted soon increased its volume of flame, so as to present a duil halo above the brilliant part; it was adjusted to the highest point without producing smoke. On lighting the lamp fed with Water Oil, it was found that its flame was luminous and might be much extended, without producing of smoke. A definition the production of smoke. A definition particle of smoke and the light of 132, without a trace of smoke emitted. The Water Oil permits of say dimination in the flame without loss of economy.

Respectfully,

A. A. flayleß, M. D., State Assayer.

OATS, OATS, OATS.

SKIRTS.

2. It will burn in Kerosene Lamps without alteration.
3. It is essentially an Oil, and yet will not greane the most delicate fabric.
4. It is less volatile than other cils, consequently will not consume as rapidly.
5. The lame is more purely white and soft than that of any other Oil or Fluid. Therefore less injurious to the eyes.
6. The wick may be raised to a great height and breadth, giving an immense illuminating power without producing smoke.
7. Its great specific gravity cenders it not only safe, but the most economical Oil in existence.

The Water Oli may be flad in any quantity of N. HEHARD & CO.
